2.18	Additional information on the issuer	SFIL lies at the heart of a system that serves the State’s commitment to provide French local government entities and public healthcare institutions with continuous and efficient access to long-term bank financing, alongside the offers of commercial banks and French and European public institutions operating in this sector. This system, which was launched following European Commission authorization on December 28, 2012, makes it possible to refinance La Banque Postale’s loans to French local government entities and assist the relevant borrowers in their efforts to reduce their outstanding sensitive loans. Since mid-2019, La Banque Postale also markets green loans with the aim of financing local investments that contribute to the ecological

		<p>transition carried out by the local authorities. These loans are refinanced by SFIL Group's green issues.</p> <p>SFIL provides services for the medium and long-term financing activity in the local public sector (French local government entities and public hospitals) carried on by La Banque Postale and its joint venture with LBP-CDC, "La Banque Postale Collectivités Locales". Within this framework, it provides services at all stages of medium and long-term loan issuance and management process (loan offerings, middle and back office management, ALM reporting, management control, accounting, third-party management, etc.). The performance indicators introduced to measure the quality of the services that SFIL provided in 2019 were satisfied at 99%.</p> <p>CAFFIL Obligations Foncières: SFIL Group's main source of financing comes from the issue of covered bonds by CAFFIL. The outstanding of CAFFIL's covered bonds was EUR 49.8 billion as of 31 December 2019. The market for public issues of covered bonds in euros (benchmark size) was very active in 2019 with a primary offering volume of EUR 140 billion (compared to EUR 138 billion in 2018 and EUR 115 billion in 2017). This level of activity is mainly due to the coming to maturity of a significant volume of bonds (EUR 107 billion). In 2019, the presence of German, French and Canadian issuers (respectively 21%, 19% and 8% of the offering) has been significant. The latter notably took advantage of more favorable conditions in euros than in dollars. We can also note the return of periphery jurisdiction issuers (Spain, Italy and Portugal for a total of around 10% of the offering) and the United Kingdom (5% of the offering). This high level of activity was well absorbed by investors despite the slowdown in the Eurosystem purchasing program in the primary market up to November. Investor demand was also supported at the beginning of the year by higher spreads than in 2018. Having ended its new issue purchase program, the European Central Bank decided at the beginning of September to relaunch it in order to support growth and inflation in Europe. At end-2019, the outstanding of covered bonds purchased by the European Central Bank under its programs was EUR 264 billion. It remained stable in 2019 after a EUR 22 billion increase during 2018.</p> <p>SFIL's total EMTN bond outstandings came to EUR 7.1 billion as of December 31, 2019.</p> <p>The French market of the "agency" sector in which SFIL issues saw a significant increase in volumes in 2019 at EUR 21.7 billion (up +64% vs 2018 at EUR 13.3 billion). This change is notably</p>

		<p>due to the arrival of new issuers, two of which benefited from programs solely focusing on Green/Sustainable themes. These formats have seen their use strongly increase with almost one-third of issues (EUR 7 billion) generated by all French agencies under the Green or Sustainable labels.</p> <p>In 2019, in a context of significant rate decreases, long maturities were the most in demand with 65% of 10-year transactions or more whereas this part of the curve only represented 22% in 2018.</p> <p>Lastly, on the currency side, French agencies were active in USD, going from a volume of USD 4.5 billion in 2018 to USD 6.4 billion in 2019. These transactions were launched during the first half year, in which the financial conditions - for issuers - made refinancing in USD rather than euros more attractive.</p> <p>As part of its public policy missions, the SFIL Group made its first “social” and “green” issues in 2019. These two issues were respectively dedicated to financing French public hospitals and financing projects to promote the ecological transition within French local authorities.</p> <p>These thematic issues will become a regular and significant source of refinancing for the SFIL Group in future years, particularly as part of its role as a public development bank dedicated exclusively to financing a sustainable future. The SFIL Group’s thematic bond outstanding amounted to EUR 1.750 billion as of December 31, 2019 (this amount is included in the outstanding of covered bonds indicated previously).</p> <p>In addition to the Group’s bond issues, SFIL also issues certificates of deposit. The outstanding for certificates of deposit was EUR 0.6 billion as of December 31, 2019.</p> <p>As of December 31, 2019, the financing that SFIL received under the loan agreements with its shareholders amounted to EUR 0.4 billion for La Banque Postale and zero for the Caisse des Dépôts. Shareholder refinancing was gradually replaced from 2016 by financing obtained by SFIL in the financial markets. However, shareholder refinancing remains available, notably in the event of likely liquidity requirements generated during a situation of stress.</p> <p>Concerning the Coronavirus (COVID-19) pandemic, the SFIL Group is following the recommendations of the World Health Organization and the French government and</p>

		<p>has implemented the measures necessary to maintain operational continuity in all its business activities, in particular, almost all of its workers are working remotely and a crisis cell has been meeting daily to adapt the working methods used. The SFIL Group's teams have been very closely monitoring the disruptions to the financial markets since the crisis began. The impact on current and planned future operations for SFIL and CAFFIL, and on their counterparties (customers, banks, partners) are being reassessed regularly. On the date this report was published, no impact was identified that may have significant consequences on the group's financial situation and its capacity to honor its commitments. Time lags in the collection of income from some of its assets (consisting entirely of exposures to public sector borrowers) may be considered, as well as the postponement of certain bond issues in the event of unfavorable market conditions. Nevertheless, the liquidity risk is limited by the good matching of the maturity profiles of assets and liabilities and the ability to benefit from the financing proposed by the European Central Bank through high-quality assets in the portfolio. Moreover, the quality of SFIL's shareholding structure, its status as a public development bank, the quality of CAFFIL's and SFIL's standings, the very rigorous risk management and the solid solvency ratio are all advantages within the current context.</p> <p>The shareholding structure of SFIL, changed in 2020. On September 30, 2020, the State, CDC and LBP announced the finalization of the acquisition by CDC (that held a 20% stake to date) of all of the SFIL shares held by LBP (i.e. 5%) and of all of the SFIL shares held by the State (i.e. 75%), with the exception of one ordinary share that the State retained in accordance with the terms of the agreement announced on 9 October 2019 and 4 March 2020. CDC is SFIL's new reference shareholder. The State will continue to have a seat on SFIL's Board of Directors by means of a non-voting director, in view of the public interest missions entrusted to SFIL.</p> <p>This operation enables the public financial institutions to continue to serve the French territory, by grouping them within a large public financial group, formed around CDC and La Poste.</p> <p>SFIL's shareholding structure is still fully public. Its shareholders will ensure that SFIL's financial solidity is preserved and its economic base protected, and will continue to provide it with the necessary support, in accordance with the applicable regulations. CDC, SFIL's new reference shareholder, confirmed its commitment in a letter of support, completed by a letter of</p>

		support from the State, in the context of SFIL's continuing status as a State-owned development bank.
